

# Community Market Guidelines

## **Guidelines for the Community Market**

All member (vendor) presentations must have their farm and/or business name and address clearly displayed on each market day.

Prices need to be clearly posted on all items for sale.

All products that are so called “buy ins” must be clearly marked as so, meaning not grown or made by the member (vendor).

When displaying both organic and conventional grown produce it must be labelled as such. Like produce cannot be displayed next to one another.

All members (vendors) must present themselves appropriately. There will be no smoking or alcohol consumption by any members or patrons of the market.

Please remember that everyone is here to promote their business in a positive light, misconduct by any member will be looked into and taken care of with the utmost respect of all involved. Dismissal of any member would be a last resort but if necessary will be done. We are trying to provide a positive experience for all members and patrons.

All members must provide to the WPRD the proper licensure and certification before they are allowed to participate in the market. All insurance information must also be provided to the WPRD before any member can set up their space.

The market will not be used to promote any political or religious views onto the general public or other members of the market.

Members who bring their children are responsible for their actions and/or their whereabouts at all times.

Members are expected to leave their pets at home during the times that the market is open.

Please remember this is a public facility and respect it as such. Your space and this market should be thought of as your own and properly taken care of as if it were.
