EURKEA! THE INVENTORS CAMP DESCRIPTION

Children will overcome a series of challenges using basic materials, simple machines, tips from famous inventors and the most important of all – their mind. With a little bit of ingenuity children will create catapults and forts, construct working light sticks to take home and assemble a set of circuits with batteries and light bulbs. While Thomas Edison said "invention is 10% inspiration and 90% perspiration", this camp is 100% FUN

Sparking
Imaginative
Learning!
